**CONFERENCE SPONSORSHIP OPPORTUNITIES**  
 .....

New Hampshire's 1st Immigrant Integration Conference will uniquely convene stakeholders from all sectors influenced by the migration of newcomers to this state. Through a variety of breakout sessions and a panel of impactful leaders from across New Hampshire, participants will learn how they can be most effective in their work of helping newcomers integrate fully into their new communities.

The conference will feature keynote speaker Richard T. Herman, co-author of *Immigrant Inc.—Why Immigrant Entrepreneurs are Driving the New Economy (and how they will save the American worker)*. In response to this presentation, New Hampshire business leaders will discuss their experience either as an immigrant themselves or about the immigrants they have employed, portraying the positive impact of the integration of foreign-born and U.S.-born in the workplace and community.

Your support of this inaugural event would assist us in providing education to an estimated 200 participants for a full day of learning opportunities. The day will feature eight breakout sessions with topics ranging from health to economic security, two panel discussions of regional business and community organizing leaders from across the state, and a keynote presentation by a nationally recognized leader in this field. We will also be celebrating local immigrant integration champions that help advance this work in New Hampshire communities, often without recognition.
